THIS IS UNEVALUATED INFORMATION

25X1

- The coal mine Zabrze Wschod, which was also worked by the Germans, is located at Zabrze, ul. Lompy #10. It is under the Gliwickie jednoczenie Przemyslu Weglowego w Gliwiczch (Glivice Coal Industry Union in Gliwice).
- The administration of subject coal mine is divided in two groups, technical and administrative.

The technical eroup cossists of the following personnel: chief director; chief engineer, technical manager, five chiefs of coal pits, 20 managers of coal pits, 70 mine technicians, and 60 pitmen-

- 3. The mine covers an area of approximately 300 by 800 meters.
- The monthly quota of the mine amounts to 170,000 metric tens. The monthly production usually runs up to 175,000 metric tons. The daily quota amounts to 7,300 metric tons, but 1,000 metric tons of this production consists of stone. The coal is sold in Poland, Czechoslovakia, and East Cermany.
- 5. The mine has one reilroad siding with standard-gauge tracks, two railroad sidings with narrow-gauge tracks, and five trucks (coal cars?) at its disposal.
- 6. The mine employs 400 clerks and 5,400 miners. This latter figure includes 400 women, 80 of whom work underground. The work is done in three shifts: from 0600 hours and 1400 hours; from 1400 hours until 2200 hours; and from 2200 hours until 0500 hours. 2100 workers are on duty during the first shift; 1,700 workers are on duty during the second shift; and 900 workers are on duty during the third shift. It is expected 700 will be absent each day.
- 7. There are three categories of workers: civilians 4,050 persons; military labor unit working at the Miarka Pit - 1,200 persons; and young piners brigade D.M.G. (Drozyna Mlodych Gornikow) - 150 persons.
